**Petition to Demand the Re-instatement of Fazel Khan**

We, the undersigned, some of us being members of the University of KwaZulu-Natal, hereby register our outrage at the summary dismissal of Fazel Khan and the broader crack down on the expression of views critical of the management of our university. Academics the world over have insisted that universities are not corporations and that no university has the right to demand that its employees refrain from being critical of university managers. In South Africa there is a particular constitutional protection for academic freedom - a freedom which clearly includes the right to be critical of university managers. Our demand is simple. Fazel Khan must be immediately re-instated.
